

What can we tell about a bird from its beak and feet?

Beak:

Cracking
Seeds

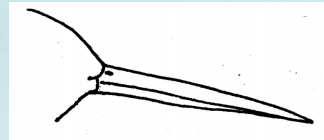

Holding
onto their
prey

Tearing
meat

Filtering
water

Sucking
nectar

Grabbing
seeds and
insects

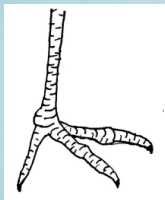

Stabbing
the water
for fish

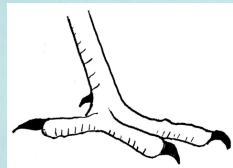

Drilling
holes in
wood

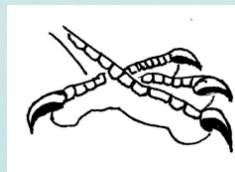

Feet:

Wading in
water

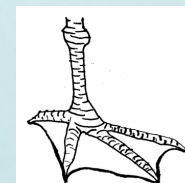

Perching and
hopping around

Gripping
prey

Holding
onto tree
trunks

Swimming
in water
